

## Quotation for Gas Monitoring System Project.

**Quotation Date:** 12/01/2025

**Client Name:** Swarali Sachin Patil

**Client Email:** [swarilpatil932@gmail.com](mailto:swarilpatil932@gmail.com)

---

**Subject:** Quotation for Gas Monitoring System Project Development.

Dear Swarali Sachin Patil,

We are pleased to provide you with a quotation for the development of the Gas Monitoring System project. Below are the details of the project and pricing.

---

### Modules:

1. **Android Application:** Android application for real time monitoring and notifications managements.
  2. **Load Cell with HX711 Module:** Measures the weight of the gas cylinder to monitor gas levels.
  3. **MQ-2 Gas Sensor:** Detects the presence of combustible gases to identify leaks.
  4. **ESP32/ Arduino Microcontroller:** Serves as the core processing unit.
-

## Tech Stack:

1. **Android with Java:** Android application development using java.
  2. **IOT Development:** C++/Python for electronic device programming and electronic connections.
- 

## IOT Devices Pricing:

No.	Components	Qty	Price
1.	ESP32 Microcontroller	1	₹300 - ₹500
2.	Load Cell with HX711 Amplifier	1	₹300 - ₹600
3.	MQ-2 Gas Sensor	1	₹100 - ₹300
4.	Buzzer	1	₹50 - ₹80
5.	Jumper Cables	10-15	₹50 - ₹100
	Total		₹1500 to ₹2000 (Approx costing)

**\*Shop billing for each IoT device will be provided.**

## Development Costing:

- **Original Price:** ₹10,000
  - **Discounted Price:** ₹6000 (40% Special Discount)
- 

## Final Costing:

- **Project Costing (IOT Devices + Development):** ₹8000/-

This includes the development of all modules, testing, and the cost of IoT devices. We ensure the project will be delivered to your home address within the specified deadline.

We are confident that this project will meet your requirements and add value to your objectives. Please feel free to contact us for further discussions or clarifications.

**Best Regard,**

**Team ProjectoVerse**
